DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Japanese Patent Application (JP 4251164 – A). The Japanese patent application discloses a cooled chamber comprising a plurality of vaporizers (13,23,33) with different temperature zones, a plurality of flow rate control valves (16,26) whereby the opening degree of the flow rate is controlled so as to conform to evaporation pressure or temperature of the vaporizers and further comprising a compressor (1).
